

# AI Generalist Intern - Assignment

Ujjwal Patni International

*This assignment tests real skills you'll use in the role.*

## PART 1: AI Skills Assessment

List your **top 3 AI strength areas** (e.g., image generation, video creation, document automation, research, copywriting, data analysis, etc.)

For each strength area, mention **3 specific AI tools** you're most comfortable using.

## PART 2: Instagram Carousel Creation

Create a **5-slide carousel** for **@ujjwalpatniofficial** on Instagram.

### Your task:

- Study his existing Instagram content to understand themes/topics/visual style
- Create an original carousel on a business/entrepreneurship/motivation topic
- Use AI tools for both visuals AND content
- Format: 1080x1080px per slide

### Deliver:

- ✓ 5 slides (as PDF or separate image files)
- ✓ Caption for the post (150-200 words + hashtags)
- ✓ Brief note on which AI tools you used for visuals and content

## PART 3: Business Framework Document

Create a **professional business framework/template** that Dr. Patni can share with his BusinessJeeto community of SME/MSME owners.

### Pick ONE framework to create:

- Business Health Scorecard (50-Point Assessment)
- Customer Experience Audit Framework
- 5 Business Systems Every SME Must Build
- Financial Health Check: Monthly Review Template

### Requirements:

- 3-4 pages, professional design and formatting
- Must be actionable - include checklists, templates, or worksheets
- Use simple, clear language (audience is Hinglish-speaking SME owners)
- Should look like a real business tool, not generic AI-generated fluff
- Use AI for research, content structure, and design

### Deliver:

- ✓ Complete framework document as PDF
  - ✓ Brief paragraph (3-4 lines) explaining: AI tools used + research methodology
-
